

Arguments in Favor of Measure N

VOTE YES ON MEASURE N

YOUR SUPPORT OF MEASURE N WILL ASSIST QUALIFIED FAMILIES AND SENIORS WITH A LOW OR VERY LOW INCOME LEVEL TO PAY THEIR CITY WATER AND SEWER BILLS.

Due to increasing State and Federal regulations coupled with an aging Water and Sewer system the City of Woodland has been required to reinvest in its Water and Sewer infrastructure. The new water system will bring Sacramento River water to Woodland, treat and purify the water, and distribute it to Woodland homes and businesses. In addition due to similar State and Federal requirements on Woodlands ability to discharge wastewater the City is also required to update and modernize its sewer treatment plant.

The requirements to modify and update the City's water and sewer systems have resulted in dramatic increases in the rates charged to Woodland's residents and businesses. The dollars from existing federal CDBG block grant program allocated to assist low and very low income families has been exhausted. Please consider assisting Woodland's less fortunate.

Vote Yes on Measure N.
