

Woodland City Council Meeting
City Hall, Council Chambers
300 First Street
Woodland, California

MINUTES

**CITY COUNCIL
SPECIAL/CLOSED SESSION**

OCTOBER 3, 2006

6:00 P.M.

CLOSED SESSION

At 6:00 p.m. Council held a conference with Labor Negotiators pursuant to Section 54957.6. The Agency Designated Representative was Phillip Marler and the Employee Organizations discussed were Woodland City Employees' Association, Woodland Professional Firefighters' Association, Woodland Police Supervisors' Association; Mid-Management and Professionals' Association. Present at this session were Mayor Flory, Vice Mayor Davies, Council Members Marble, Monroe and Pimentel, City Manager Kirkwood and Assistant City Manager Marler.

REGULAR MEETING

MINUTES

7:00 P.M.

CALL TO ORDER

At 7:10 p.m., Mayor Flory called the regular meeting of the Council to order.

CLOSED SESSION ANNOUNCEMENT

Mayor Flory announced that Council had met in closed session to discuss Labor Negotiations and direction had been provided to the Agency Designated Representative.

PLEDGE OF ALLEGIANCE

Mayor Flory invited all in attendance to join in the Pledge of Allegiance, led by Police Chief Sullivan.

ROLL CALL

COUNCIL MEMBERS PRESENT: Skip Davies, William Marble, Jeff Monroe, Art Pimentel, David Flory

COUNCIL MEMBER ABSENT: None

STAFF MEMBERS PRESENT: Rick Kirkwood, Phil Marler, Ann Siprelle, Gary Wegener, Carey Sullivan, Paul Miller, Ana Gonzalez, Dan Rice, Christine Engel, Cynthia Shallit

COMMITTEE REPORTS

Council received the minutes of the Water Resource Board Association meetings of April 3, 2006 and June 19, 2006.

Council received the minutes of the Library Board of Trustees meeting of August 21, 2006.

Council received the minutes of the Traffic Safety Commission meeting of May 1, 2006.

COUNCIL/STAFF COMMENTS

Vice Mayor Davies said the Chamber will be holding 2 x 2 meetings with the City each month from this point on. They will be addressing issues of concern to the City and have asked the City Manager and Community Development Director to attend these meetings. He requested Director Wegener to look at a traffic calming issues on Saratoga between Gibson and Ashley. He also received a request on mandatory garbage pickup concerns and asked that Council look at why this must be mandatory without exception. Council concurred to review the current Code language on this issue.

Council Member Pimentel stated he had attended the Great Valley Leadership Institute and felt it was a very good program for all Council Members and other elected officials. There was a meeting at the Yolo County Housing Commission and they support utilizing \$75,000 of Community Development Block Grant monies to help an Art workshop on Lemen Avenue.

Mayor Flory indicated that during Public Comments, those items that have been discussed extensively at previous meetings, will be limited to three minutes only. He also expressed concern about speakers who have made unkind and unfounded comments to or about staff and he will not allow that type of behavior at future meetings.

PRESENTATIONS

On a motion by Council Member Monroe, seconded by Council Member Pimentel and carried unanimously, Council moved the following items under Presentations as recommended:

CERTIFICATE OF APPRECIATION FOR MONLEY CRONIN, INC.

Council Member Pimentel presented a Certificate of Appreciation to Monley Cronin, Inc., for cooperation in assisting the City of Woodland in meeting their affordable housing goals per the Spring Lake Specific Plan area.

PROCLAMATION IN SUPPORT-AMERICAN CANCER SOCIETY RELAY FOR LIFE

Vice Mayor Davies presented a Proclamation of Support for the annual American Cancer Society Relay for Life to be held on October 7 and 8, 2006.

PROCLAMATION IN SUPPORT-BINATIONAL HEALTH WEEK

Council Member Pimentel presented a Proclamation of Support for Binational Health Week, October 7 through 15, 2006.

PROCLAMATION-FIRE PREVENTION WEEK

Council Member Marble presented a Proclamation setting October 8 through 14, 2006 as Fire Prevention Week and dedicating this year's Fire Prevention Week to raising public awareness about dangers of fire and how to prevent it. Chief Cahill, Fire Prevention Specialists Amen and Lin, and Acting Deputy Fire Chief Bechthold accepted the Proclamation.

PROCLAMATION-DOMESTIC VIOLENCE AWARENESS MONTH

Council Member Monroe presented a Proclamation declaring October 2006 as Domestic Violence Awareness Month and presented the Proclamation to Chief Sullivan.

CONSENT CALENDAR

At the request of Vice Mayor Davies and with the concurrence of the Council, the following items were removed from the Consent Calendar for discussion:

MONTHLY STATUS REPORT – PUBLIC WORKS AND CAPITAL BUDGET IMPLEMENTATION

Vice Mayor Davies asked for clarification on why the original Green Waste Ordinance will be reinstated. The Solid Waste Committee should work on public input and provisions of information to be included in the utility billing so citizens will have information on the consequences of non-compliance with State requirements. Director Wegener said this item is later in the Agenda and is the reinstatement of those regulations that had been in place in prior to the proposal for containers. City Manager Kirkwood said there is a Solid Waste Sub-Committee in place with Mayor Flory and Council Member Monroe as members. Placement of information in the billings could be done. The process had been that the Committee complete their work, consider requests for public information, and input via formal process in the utility bill.

Council received the Monthly Status and Capital Budget Implementation Reports from Public Works for September 2006.

PROJECT PROGRAMMING SUMMARY SHEET-COMMUNITY SPORTS PARK
PROJECT NO. 04-37; CONSULTANT SERVICES CONTRACT WITH RJM DESIGN
GROUP FOR MASTER PLANNING

Vice Mayor Davies' concern is the planning of the Sports Park lights, synthetic fields, lake, paddle boats, etc. He had asked Director Gentry for a cost breakdown for replacement of the synthetic fields after 10 or 15 years and how the City will plan to accommodate that future need. Consideration of the maintenance of the lake and boats, the amount of water to be pumped should be known now. Director Gentry invited the Vice Mayor and other Council Members to work with the Commission on the master planning. Council concurred.

On a motion by Council Member Monroe, seconded by Council Member Marble and carried unanimously, Council approved the revised Project Programming Summary Sheet for the Community Sports Park, Project 04-37 and authorized the City Manager to execute a Consultant Services Contract with RJM Design Group in the amount of \$34,500 for master planning the Community Sports Park.

ORDINANCE-YARD REFUSE COLLECTION (see further discussion below)

Vice Mayor Davies said this Ordinance reinstates the language which had been in place prior to the institution of the Green Waste program only, which had been rescinded. Item A identifies the specifics of the size and height of the piles placed in the street and what can be included in those piles. Piles do not meet those dimensions and but are consistently much larger. He does not feel these dimensions are enforceable and would like to have the more study done to determine appropriate sizes. Council Member Monroe stated that previous language also said the clippings could not be placed into the street until the night before pickup, which is also not enforced. Director Wegener said that language regarding when placement can occur is part of the encroachment section of the code and is still in effect. He said the language on pile size and location had been in place for twenty-two (22) years and not fully enforced, but on a complaint basis. Those dimensions are set to facilitate the capability of the equipment utilized in the pickup process. It will be addressed again when the container program is brought before the Council. Vice Mayor Davies said it has not worked because it was not enforceable. Neighbors put their piles together. The equipment scoops up five or six piles at once now, which are bigger than the current dimensions.

At the request of Council Member Pimentel and with concurrence of the Council, the following items were removed from the Consent Calendar for discussion:

SOLE-SOURCE, NEGOTIATIONS AND EXECUTION OF CONTRACT-JAMES BACCHINI AND ASSOCIATES, INC., (JBA)-PROFESSIONAL LANDSCAPE CONSTRUCTION INSPECTION SERVICES ON SPRING LAKE SPECIFIC PLAN PROJECTS

Council Member Pimentel asked for a comparison of the cost between City employees handling this and the proposed outsourcing costs. Director Gentry said the City has a Park Planner who handles the majority of the inspections at present. These inspections are involve a majority of his time and, consequently other duties are not being handled. This service will supplement the Park Planner's work. The cost is charged 100% to Development. Council Member Pimentel wants to know the budget impact. Director Gentry said the estimates were in the Spring Lake costs. The individual numbers have not been broken down at this point. The service must be provided but the City cannot keep up. Director Wegener said the Spring Lake projects are all listed out in the facilities requirements of the Capital Improvement Plan. They are "costed" out for the construction work. There are soft costs for inspection, construction management, design, etc. and are based on cost estimates provided by the Consultant. The majority of the work done on the project is through consultant services. The amount of inspection is unclear at this time due to workload uncertainties. The cost is covered in the CFR. This is not an additional cost. Council Member Pimentel said without the numbers he is unwilling to vote on the item without complete understanding of the costs. Council concurred to vote on this item separately.

On a motion by Vice Mayor Davies, seconded by Council Member Monroe and carried, Council authorized staff to sole-source and enter into negotiations with James Bacchini and Associates, Inc. (JBA), for professional landscaping construction inspection services on Spring Lake Specific Plan project; and, authorized the City Manager to execute a Contract for Services with JBA". Mayor Flory and Council Member Pimentel voted to the negative.

LIMITED LEASE AGREEMENT-LOS CAPORALES

Director Gentry said there was a change on the agreement under item #2, Terms of Lease, that should indicate for "nineteen" months and under item #5 (2) should read "for other non-profit equestrian groups". The Los Caporales has indicated they are in agreement with the Lease. The request for an on-site

Veterinarian would be an extreme burden and they would not be able to operate with that restriction. The term would start March 1, 2007 and would not be extended past October, 2008. The monthly fee would be \$1,000 but could be reimbursed if they clean off the site completely at the end of the term. The items requested by the Yolo County Public Agency Risk Management Insurance Authority are being addressed but some are costly, thus the requests by Los Caporales to start their lease in March to fund those improvements.

Vice Mayor Davies said the Veterinary requirement is costly but asked if there had been consideration of having an Animal Health Technician on site. Director Gentry said that could be a middle ground consideration. Council Member Monroe said the humans have a greater chance of injury at these events and the emergency response equipment is further away.

Juan Ramon Cambler said he is proud of his heritage but wants to be represented as being humane to animals as well.

Christi Payne feels that an on-site Veterinarian should be at this rodeo and any rodeo within the City limits.

Cynthia Canchola is very concerned about any injuries to the animals. She does not want any injuries to the animals and does not want the rodeos to be held. She wants a Veterinarian on site if they are going to be held.

Cathey Wragg wants the City to remain inviting. She suggested that the Veterinarians be encouraged to volunteer their time. She would like the history of the organization and how they treat the animals. There is a lot of money made on these events and they should be able to afford the Veterinarian on site.

Grace Cruz said there are some misunderstandings about the group. These rodeos are like the ones seen on television. The cost for a Veterinarian is high. They have not been having events to raise money for quite some time so their funds are low. A Veterinarian will be on call and will be called immediately if there are concerns. There have never been injuries or complaints of animal cruelty at their events.

Karen Raasch of the California Federation for Animal Legislation said she supports the recommendations of Eric Mills in his letter of September 30, 2006.

Ken Flower had been invited on several occasions to attend a rodeo at the site to provide entertainment to children as he had pony rides at that time. He never saw any cruelty to any animals. They had bull riding, roping and horse

dancing, none of which are cruel to the animals. It was centered around tradition, heritage, and family unity.

Curt Ransom of the Humane Society of the United States thanked the City and Los Caporales for taking the comments under consideration. They would still appreciate a Veterinarian in place.

Marilyn Jasper feels there are good intentions. She has concerns about the animal activities. There should be strong contract language that eliminates any ability to have activities to harm animals. Any traditions that are potentially harmful should be stopped. There is a well known correlation to animal abuse or cruelty to human abuse. These activities should be banned on City property and enforcement should include on-site monitoring. Any animal event should have prior approval from the Council, Animal Control, or other monitoring agency.

Brenda Cedarblade said she and her husband run a high-end boarding facility. She attended events at the site and saw no cruelty, but family and traditional events. There were no rodeo events, except bull riding. The letter from Mr. Mills is very good but some things should be added. The City should set up some Ordinances to prevent horse tripping and adding language to prohibit roping of any body parts on horses and prevent tailing of cattle. Los Caporales does not do any of things. The U. C. D. Veterinarians are very close and if a Veterinarian could be contacted before the event and be sure they were on call, it would be sufficient. Any animals injured should receive immediate treatment. After all efforts to save the animal were done, then euthanasia would be the last resort. She would like to see the Future Farmers of America added to the list of site users as they are in need of a facility.

Carol Gage would like all roping of horses by the legs as a prohibited activity included in the contract.

Eric Mills of Action for Animals feels that the agreement should include the same requirements as the PRCA (rodeo association), that a Veterinarian be on site at all events. If the entity conducting the event cannot afford the Veterinarian, they should not be holding the event. Animals should be attended to immediately as are injured humans. All roping of horses should be prohibited, including other organizations utilizing the site or other sites within the City that may hold events.

Maria Loza said ten years ago the Los Caporales was the Asociacion de Charros and they held charriadas. The name has been changed so there is no

confusion with the charriadas as they no longer hold that type of event. The animals do not get hurt at the current events.

Ted Wilson endorses the Los Caporales. Their rodeo is more of a horse show event than a rodeo. The only rodeo event is bull riding with five to ten riders.

Council Member Monroe has experience on a cattle ranch. Those who work around animals take care of most issues themselves. Requiring a licensed Veterinarian on site at all times is extremely expensive and with the type of events Los Caporales holds they will not need that on site requirement. There have been rumors circulated of things that are not really happening at the events.

Mayor Flory said the agreement requires the City to be notified when an event is planned. Director Gentry should have a staff person on site for a period of time or notify the SPCA about checking up on the events planned. The suggestion of City wide Ordinances addressing some of the issues for any other group that might hold events, such as those on private property is a recommendation. Director Gentry said the lease requires that each event go through the Special Event Committee whereas in the past, all of the events were not individually scanned.

Council Member Marble is not sure there is a big problem that requires this much attention. The lease is comfortable for the Los Caporales and the City. The City is demonstrating concern about the welfare of the animals. The suggestions could be added to the lease. The on call Veterinarian is adequate considering that the group has not had any issues of injury in the past.

Vice Mayor Davies would like to amend the agreement to prohibit all roping of horses by the legs.

Council Member Pimentel still has concerns about the animals, the commercial events and sale of alcohol on City property. There were some members of the community who had made some accusations against him on this issue and it is important to assess the character, trustworthiness, honesty, and commitment to community of those people prior to making decisions on the issue. He cannot support the Los Caporales and the agreement based on his concerns.

On a motion by Vice Mayor Davies, seconded by Council Member Monroe and carried unanimously, Council approved amending the contract to provided

under Section 5, (A), (iii), (b) that all roping of horses by the legs shall be prohibited.

On a motion by Vice Mayor Davies, seconded by Council Member Monroe and carried, Council approved the contract as written and amended and passed the contract with Los Caporales lease agreement of the current regional park property on County Road 102. Council Member Pimentel voted to the negative.

ORDINANCE-YARD REFUSE COLLECTION (continued)

Vice Mayor Davies said there was an amendment to the proposed language given to him by Director Wegener striking out some of the language. Mayor Flory said Section 23C-4-14, (A), to strike "in no event shall exceed three feet in width, five feet in length, four feet in height". Director Wegener said the language would state that piles must be placed such as to not obstruct the gutter or traffic, which should be adequate language. Council Member Marble said when it comes before the Council as part of the Committee recommendation, the pile size will change because the pruning will go out once per month and would accept the change as proposed.

On a motion by Vice Mayor Davies, seconded by Council Member Pimentel and carried unanimously, Council introduced and read by title only, "An Ordinance of the City of Woodland Amending Section 23C-4-14 of the Code of the City of Woodland Relating to Yard Refuse Services" with the amendment to eliminate the size of the piles provided there is no obstruction to gutter or traffic.

On a motion by Council Member Monroe, seconded by Council Member Marble and carried unanimously, Council approved the following Consent Calendar items as presented:

MONTHLY STATUS REPORT – COMMUNITY DEVELOPMENT

Council received the Monthly Status Report for September 2006 from Community Development.

MONTHLY STATUS REPORT – PARKS AND RECREATION

Council received the Monthly Status Report September 2006 from Parks and Recreation for.

PROJECT PROGRAMMING SUMMARY SHEETS PROJECT 05-01-FEDERAL AID
ARTERIAL-COLLECTOR; PROJECT 02-03-BEAMER PARK RECONSTRUCTION;
PROJECT 00-15-COMMUNITY AND SENIOR CENTER

Council approved the revised Project Programming Summary Sheets for Project 02-03, Beamer Park Reconstruction and Project 00-15, Community and Senior Center.

MEASURE "H" REPORT

Council received the estimated final Measure H Report.

2006 COPS METHAMPHETAMINE GRANT AWARD-POLICE DEPARTMENT AND
YONET

Council authorized the City Manager to sign acceptance of the 2006 COPS Methamphetamine Grant Award.

PUBLIC HEARING

CONTINUE PUBLIC HEARING AND ADOPTION OF RESOLUTION INCREASING
THE SPRING LAKE INFRASTRUCTURE FEES

City Manager Kirkwood said the Spring Lake Sub-Committee has not had the opportunity to meet on this issue as yet.

Mayor Flory opened the Public Hearing. On a motion by Vice Mayor Davies, seconded by Council Member Monroe and unanimously carried, Council continued the Public Hearing to the October 17, 2006 meeting.

REPORTS OF THE CITY MANAGER

SUPERIOR COURT FACILITIES

City Manager Kirkwood said the County Court System has moved to the State Superior Court as a result of State law. Approximately two years ago he approached Council to move on a Memorandum of Understanding between the County and State Superior Court. The Yolo County Court System is considered

"immediate need" in the process which places them high on the list. He met with the Court Executive Officer, Jim Perry and County Executive Officer Sharon Jenson last week to discuss the steps and put together a report to Council. The City and County should work together to present an economic incentive package to help locate the Courts in Downtown Woodland. The Downtown Specific Plan A-3 Zone holds policies to support the Courts in the area. Mr. Perry feels the City has been proactive in developing and supporting the policies to keep the Courts in the Downtown area. The State is considering acquiring the old jail facilities from the County for the new facility. They need 170,000 square feet minimum and this site would accommodate that need. However, there is a need for parking related to this facility and for utilization by other County, City and citizens needs in the area. The State has preliminarily indicated they have begun to set aside money to help support the construction of a parking structure. We do not have confirmation in writing on that issue. He asked that Council reaffirm the guidance in the A-3 Zone of the Downtown Specific Plan, with a need for the parking structure between Third and Fifth Street from Main to Court Streets. This area could include such things as a large cinema complex and related shopping and restaurant facilities. This would create the joint use for Court facilities during the day and other uses in the evening and weekend hours. The County Board of Supervisors will be considering the item on October 17. We need to have an economic incentive package via a Resolution adopted by the City Council to them by October 19, 2006. He will return with a Resolution for Council to approve at the October 17, 2006 meeting with direction received by Council this evening.

Council Member Monroe said when this process began, the Courts had indicated they would not be contributing dollars toward the parking. The change in their contribution indications will assist in the construction of a good facility for general public use as well. Council needs to support this project.

City Manager Kirkwood will follow through with the support of the policies in place based upon direction from Council of the desire to assist in the process for acquisition of property by the County and Courts. The Resolution will return for Council approval on October 17, 2006.

STORM DRAIN ENTERPRISE FUND INCREASE-2006/07 OUTREACH PROGRAM

Director Wegener indicated that an effective outreach to the community on the need to increase the storm water rates is necessary. The ballots need to be mailed out to the citizens. Skilled firms should be utilized to insure success of the increase to cover the current shortfall in operations and maintenance and

those increased levels as required by the State permit, the capital projects needs, and the Storm Water Phase II requirements. The Infrastructure Sub-Committee will be working on this. The first mailer would be in the December utility billing. Should funds not be increased in the Enterprise Fund, the General Fund would be tapped to cover the need which would deplete funds to other projects.

Mayor Flory asked if this outreach is to determine the maximum the citizens would be willing to pay to maintain the storm drains. Director Wegener said that is the intent. When the water/sewer increases were done over a year ago, the public was advised at that time of the need for storm drain increases and \$5.00 was the proposed number at that time. Mayor Flory asked if the increase is not at the \$5.00 level, but significantly less, what would be the outcome. If the City is not successful, services will be cut elsewhere. If the \$5.00 is more than needed and such a significant increase would cause a failure to pass, the entire issue should be addressed first. Director Wegener said the areas of concern to the public would be stressed in the outreach program. The message needs to be prepared professionally to insure success.

Vice Mayor Davies is uncomfortable with not having a firm figure on the need. Mayor Flory said Council is uneasy about the lack of firm understanding by the Council, how is the debt alleviated, where does the money go and if they are willing to only pay a lesser amount, what will that cover and what will be cut. Director Wegener said the presentation of the material to create the comfort level and understanding by the public is the issue, not the exact amount of the increase at this time. Council Member Pimentel asked why the community outreach is not supported by the Council at this time. The community must be engaged somehow in the input. Mayor Flory said the issue is hiring of a Consultant to advise us what the citizens may be willing to do. Council Member Pimentel feels the outreach is important to determine what the citizens want. Mayor Flory said we need to figure out what the City should do first and then spend the money for the outreach. Council Member Pimentel the written documentation does say community outreach. Director Wegener said we have stretched as far as we can on the requirements and have one shot with the public to achieve approval and then the General Fund will be depleted to cover the required needs.

Council Member Marble said if the money is not approved, how would the City move ahead at this time. Director Wegener said a home grown public relations effort with unskilled people for presentations, speaking engagements, and publications would be done. The Consultant handling would done

professionally, with fliers, education, pros and cons explained thoroughly. Council Member Marble said Council should agree and be united on the amount needed and then Council and staff could be effective in the presentation. The \$150,000 is premature. The Infrastructure Sub-Committee should meet and return with a proposal and timeline. The numbers should be made known as early as possible for maximum exposure.

On a motion by Council Member Pimentel, seconded by Council Member Marble and unanimously carried, Council forward the proposed increase of \$150,000 in the Storm Drain Enterprise Budget Fund 221 for 2006-07 for an outreach program to the community on a proposed increase in the program fees, to the Infrastructure Sub-Committee and be discussed as soon as possible and return to the Council at the earliest timeframe.

Mayor Flory said the Council needs to determine what items are critical to the City over the next few years and work very hard on moving forward on those issues.

ADVERTISEMENT BANNERS ACROSS MAIN STREET AND BANNER SYSTEM

Director Gentry said there had been interest expressed by some Council Members to allow banners across Main Street. There is an Ordinance in place but there is no mechanism to do the banners. The Special Events Committee looked at the item and will present to the Council their recommendations. Recreation Program Manager Rice said the Committee had taken some time on this and is seeking input from Council on the process and funding options. Manager Rice outlined the various types of events that may wish to utilize the banner. A process of the types of events that should be allowed should be of special and/or substantial importance to the City's economic, social and cultural well being. The location is proposed on Main Street at Fifth Street and Freeman Park. The design is underway so that one or possibly two staff members could raise. Seven to fourteen days has been proposed, with the emphasis on seven to allow more people to use. The fee would be \$200 per event at this point unless more staff time is required as yet unknown. Yolo County Public Agency Risk Management Insurance Authority has made some recommendations to protect the City which will be included in the proposed Ordinance. Options for funding to create and install were discussed.

Mayor Flory said this is much more than what was anticipated and was hoping for something simple and less expensive. Council Member Monroe feels this is a positive thing that had been in the historical past of the City. Council

Member Marble would like to have the project reduced in cost, maybe less elaborate. Council Member Monroe suggested seeking donations from members of the public on this project. Council Member Pimentel feels this is a good idea and the cost could be recouped relatively soon. It would be a boost to the Downtown. Vice Mayor Davies likes the idea but the cost is of concern. Director Gentry feels staff has adequate direction to move forward.

YOUTH CENTER ADVISORY TEAM

Director Gentry said Council Member Pimentel had requested this item come before Council and had provided input. Manager Rice introduced Recreation Coordinator Dallas Tringali who provided information on the concept of the Youth Center Advisory Team. The mission of the YCAT is to provide peer-inspired program to Woodland's youth and teen population at the Youth Center. They will be given the opportunity to volunteer for programs they plan and be empowered by their ownership of the program. One of the current goals is to initiate the recruitment, which has begun. They would like to have 15 members at this time who would be involved in the opening of the Center. They are also working on an incentive program to keep these members involved and the participants interested. They will be working on a solid set of guidelines by the 07-08 school year. There will be some on campus activities to promote the Center. He would like the team to evolve to a Youth Commission when appropriate.

Council Member Pimentel asked that snacks in the vending machines at the Center be healthy snack alternatives. Coordinator Tringali said the vending machines will be in the public area and the intent is to push for healthy alternatives. Council Member Pimentel would like to move forward within a year on a Youth Commission. Coordinator Tringali said the Center will open in March 2007 and with the end of the school year and the summer imminent it may not be the ideal time to set reports back to the Council without a full school year to evaluate.

Vice Mayor Davies said Coordinator Tringali should advise Council when they are ready to move forward.

ORDINANCE-COUNCIL MEETING TIMES

City Attorney Siprelle said Council had requested consideration of changing the starting time of Council meetings from 7:00 p.m. to 6:00 p.m. and ending time from 10:30 to 8:00 p.m. unless amended by vote of the Council.

On a motion by Council Member Monroe, seconded by Council Member Pimentel and carried unanimously, Council introduced and read by title only, "An Ordinance of the City of Woodland Amending Sections 2-1-1, 2-1-2 and 2-1-31 of the Woodland Municipal Code Regarding Council Meeting Times".

ADJOURN

Mayor Flory adjourned the regular meeting of the City Council at 9:30 p.m.

Respectfully submitted,

Sue Vannucci, CMC, City Clerk
