The City Manager also reviewed a proposal to add a full time Code Enforcement Officer position to the Community Development Department. A final proposal will be presented to the City Council at the Council's June 17, 1997 regular meeting. He said Council will be asked to act on the budget at the same meeting.

PARK, RECREATION AND COMMUNITY SERVICES ISSUES:

Park, Recreation and Community Services Commissioners and Council Members discussed the process by which issues related to the Commission's responsibilities are handled. Commissioners expressed a desire to have such matters deferred to the Commission for review and subsequent recommendation to the Council prior to any action by City Council. Council Members expressed support for this general practice, but also said citizens should have the ability to come to the Council directly if they are dissatisfied with Commission progress on their matter.

PLAYGROUND EQUIPMENT REPLACEMENT AT NEIGHBORHOOD PARKS:

The Commission expressed the need for more funding to replace

playground equipment at various parks. Various funding alternatives were discussed. Also discussed was the method used to select new playground equipment. Staff will develop a cost estimate for replacement as necessary for the Commission and Council's information. Then a funding plan can be prepared.

DEVELOPMENT OF ADDITIONAL PARKS AND RECREATION FACILITIES:

Commissioners and Council Members also discussed the continually increasing list of needs for parks and recreation facilities. These needs cannot be met without additional funding. Again, funding options were discussed.

A closed session regarding existing litigation scheduled to follow the joint meeting with the Parks, Recreation and Community Services Commission was not held.
