DOWNTOWN STREET CIRCULATION PLANS:

Staff reviewed the current status of downtown street circulation plans pointing out how the City has used and not used the Omni-Means study which was conducted in the early 1980's. Currently there is a development request before the City on the south side of Main Street between Fifth and Sixth Streets which would be dramatically altered if the City intended to proceed with the construction of a new couplet street in the area as called for in one alternative of the Omni-Means report. Council will be asked October 17 to decide if the couplet idea is one the City should pursue.

ADJOURNMENT:

At 7:50 a.m. the meeting was adjourned.

Deputy City Clerk of the City of Woodland
