Main Street Pavement Rehabilitation Project

Main Street Closure Schedule

Access will be additionally limited for short periods during restriping - no full road closures are expected.

ADA access will be maintained only in the east/west direction during this work. North/south crossing will be maintained at adjacent intersections.

The schedule shown is subject to change and changes will be distributed as expeditiously as possible.

Questions regarding the work and the schedule may be directed to Katie Wurzel 530-661-5954.
