Members Review of Garden Roses

Rate your roses from 1 to 5; with 5 as the best and 1 as the worst. Since many roses don't come into their own until three or more years old, please note if your roses is less than 3 years. Comments are what sets apart this rose, e.g. quick repeat, fragrance, long vase life, likes heat, need protection from afternoon sun, grown in a pot, disease resistance.

This information will discussed at our October meeting. The plan is to publish this information in the October newsletter. In order to be able to compile this information, please return your rating sheet at the September 4th meeting. Or return via email or mail to Charlotte Owendyk, 204 Park Meadow Ct. Roseville, CA 95661 or cowendyk@hotmail.com
