

CITY ATTORNEY'S IMPARTIAL ANALYSIS OF MEASURE F

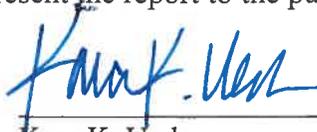

Measure F, if approved by a majority of the voters voting on the measure, will continue for twelve years a one-half cent sales tax previously adopted by City of Woodland voters in 2006 (Measure E). Unless the extension is approved by the voters, the existing one-half cent sales tax will sunset and expire on September 30, 2018. If Measure F is adopted, it will extend the one-half cent sales tax until December 30, 2030.

Measure F proposes to raise revenue for general City of Woodland purposes by continuing the current one-half cent sales tax within the City of Woodland. The current one-half cent sales tax generates approximately \$4.5 million annually to the City. The tax would be paid in addition to current state and local sales taxes and would continue to be collected at the same time and in the same manner as the existing sales tax.

State law allows the City to levy a transaction and use (i.e. a "sales") tax at certain rates, including a 0.5 percent rate if the tax is approved by a majority of the voters voting on the measure. The City Council of the City of Woodland voted on June 21, 2016 to place Measure F on the ballot.

Measure F would continue the existing sales tax, which is used for city services, programs, and facilities. Measure F would maintain the overall effective sales tax rate in the City of Woodland at 8.25%. Because this tax would continue to be a "general tax," the City would be able to use the tax proceeds for any legal governmental purpose without restriction. The City would not be legally bound in any way to use the tax monies for any special purpose or for any particular program or service.

The City would continue to be required to annually prepare a detailed report of income and expenditures of sales tax revenues and to present the report to the public and to publish it in local newspapers.
