- Please list any general comments or questions you have regarding the CDBG program:

As a subrecipient of Community Development Block Grant Funds awarded to the City by the U.S. Department of Housing and Urban Development, you are required to collect certain statistical demographic data. This data may be collected based on either a) the number of *households* served by your organization; or b) the number of *persons* served. Please indicate below the measurement of data your organization is providing in this report:

Data provided in this report is measured by (circle one): **Persons** OR **Households**

- Please provide the following demographic information regarding the ethnicity of your program’s participants for the entire grant year:

Ethnic Category	# of Persons/Households receiving services	# of Persons/Households <i>also</i> Hispanic
American Indian or Alaskan Native		
Asian		
Black		
Native Hawaiian or other Pacific Islander		
White		
American Indian <i>and</i> White		
Asian <i>and</i> White		
Black <i>and</i> White		
American Indian <i>and</i> Black		
Balance/Other		
TOTAL *		
Female-Headed Households (# out of total above)		

* The figures calculated for the “TOTAL” row of households/persons on this page should equal the “TOTAL” row of households/persons in the table on the following page.

Please note that HUD has changed the data collection requirements regarding race/ethnicity categories. These changes reflect Office of Management and Budget 1997 standards establishing that “Hispanic” is not a race category, but an ethnic category that cuts across all races. Those who are White, Black, Asian, Pacific Islander, American Indian, or a multi-race may also be counted as being of Hispanic ethnicity. As such, when asking the individual/household to select a race category, the individual/household must also state whether they are of Hispanic ethnicity. For example, an individual/household of Mexican descent would likely state their race as American Indian and would also fall under the category of “also Hispanic.” So, when filling in the table below, you would count the individual/household in both the “Total # of Participants” column as well as the “# of Households or Persons *also* Hispanic” column.

- Please provide the following demographic information regarding the income level of your program’s participants. Using the table of HUD Income Guidelines for low, very low, and extremely low income eligibility limits, complete the following table:

Participant Income Level	# of Persons/Households receiving services
Moderate-Income (51-80% of AMI)	
Low-Income (31-50% of AMI)	
Very Low-Income (30% of AMI or below)	
SUB-TOTAL	
All Other Income Levels (81% of AMI or above)	
TOTAL	

AMI = Area Median Income

* The figures calculated for the “TOTAL” row of households/persons on this page should equal the “TOTAL” row of households/persons in the table on the previous page.
